EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Evelyn Defillo on March 9, 2004.

2. The application has been amended as follows:

IN THE CLAIMS:

Cancel Claims 1-9

3. The following is an examiner's statement of reasons for allowance:

Chung, U.S. Patent No. 4,808,330, discloses a detergent composition for removing pollutants from food comprising 15-30% by weight of sodium chloride, 10-35% by weight of an alcohol, 8-25% by weight of coconut oil, and water to balance (see col. 1, line 59-col. 2, line 8). It is further taught by Chung that the alcohol includes ethanol (see col. 8, lines 18-21) and that the composition further contains coloring agents and perfumes (see col. 3, lines 20-22). However, patentee differs from applicant in that Chung does not teach or suggest in general a detergent composition that contains octoxynol-9, per the requirements of instant claim 10, or a detergent composition comprising 30-70% by weight of an inorganic salt in crystalline form, a water miscible

solvent, water, a terpene, an antibacterial agent, and a surfactant, per the requirements of instant claims 11-21 and 23.

Accordingly, the claims viewed as a whole would not have been obvious to one of ordinary skill in the art at the time of the invention after viewing the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
